

JOOMLA! TEMPLATE: JV STRATEGY USER GUIDE

INTRODUCTION – WHAT IS JV STRATEGY?

The screenshot displays the Joomla! JV Strategy template homepage. On the left is a dark sidebar with the logo, navigation menu, search bar, and contact information. The main content area features a large keyboard image with glowing keys, a welcome message with a team photo, and a 'OUR NEW SERVICES' section with three service cards. Below this is an 'ABOUT US' section with three images: a man at a desk, a globe with an arrow, and a man and woman.

ABOUT US

- 
- 
- 

A theme-template developed by team Joomlavi for Joomla! 1.5 and 2.5.

Designed around the concept of strategy, This template is most suitable for business and academic sites,

It can also be adapted to accommodate other types of sites rather easily.

DOWNLOADING JV STRATEGY – WHERE TO FIND IT?

To download JV Strategy, you need to register a username on <http://Joomlavi.com> and purchase a package for download privileges.

You can find JV Strategy within the 'Joomla! Templates' pages (which can be found in the 'Joomla! Products' sub-menu).

You can also go to JV Strategy's page directly using this URL: <http://www.joomlavi.com/joomla-templates/10-joomla-templates/jv-Strategy.html>

Within JV Strategy's page, there are two set of buttons under the theme's screenshot, one for Joomla! 1.5 and one for Joomla! 2.5. Each set consists of 3 buttons: 'Live Demo', 'Download' and 'Position'

Joomla! 1.5:

Joomla! 2.5:

Strategy, without a doubt, is a vital part of business. And these days, creating a suitable website to promote your service can be... no, not can... is an essential part of a successful businessman's strategy.

Joomlavi's develop team proudly present to you our another business template-theme for Joomla!: JV-Strategy. Following our own trend for business-related works, this theme-template has a relatively simple and compact design that emphasizes functionality and a professional feel. JV Strategy spots a total of 4 color variations, and like all other JV-Framework based theme-template, is easy to configure and modify, allowing the users to add their own unique touches without much hassle.

Let set up a site strategically.

Features

- Support RTL
- Quickstart (Joomla! install that includes demo data)
- Mobiles: iPhone/iPad, Android, handheld theme
- Drop and drag module position.
- Validate xhtml and CSS
- 100% tableless CSS
- CSS3 powered
- Multiple Layout Options
- Google Fonts
- SEO Optimized
- 4 Colors
- Flexible template and column widths
- Custom theme profile
- Compatible: Firefox, IE 7+, Chrome, Safari, Opera ...
- Columns: Unlimited
- Typography
- Add new position, block (unlimited number of positions and blocks), edit and delete position and block...

Clicking on 'Live Demo' would redirect you to a demo-site using JV Strategy. This is also what your site will look like when using a Quick-start version of this template.

Clicking on 'Position' will show open up the demo-site, with all the positions visible.

There will be multiple files in the download page. Before selecting which file(s) to download, please consider what you are planning to do.

-If you are setting up a new site, the Quick-Start version is the best choice, because it will install an entire new site with all associated extensions and styled to look like the template's live demo.

-If you already have a site and don't want to replace it, or you don't want all the extensions of quick-start version, the package version will be your choice. With it, you can install a theme-template without any data loss and all extensions will be optional.

After you have confirm the file(s) you need, select them by ticking the box(es) in front of said file(s), then click download.

If the file you downloaded has 'unzip_first' in its name, please extract it before continuing with the installation.

INSTALLING JV STRATEGY – HOW TO INSTALL IT WITH A QUICKSTART OR THEME VERSION

Installing JV Strategy template with Quick star version:

To install a QuickStart version of JV Strategy, follow the following steps:

- Extract the file with 'unzip_first' in its name.
- Extract the resulting file into a folder. For example, let name the folder 'Strategy'.
- Copy or upload said folder onto your server's.
- Open your browser and open the URL to the folder you copied. For example, on a local host, the URL would be: <http://localhost/Strategy/>
- Install the quickstart template the same way you install a new Joomla! instance using browser. During the installation process, you must remember to install Sample Data by clicking on the Install Sample Data button.

Steps

- 1 : Language
- 2 : Pre-Installation check
- 3 : License
- 4 : Database
- 5 : FTP Configuration
- 6 : Configuration**
- 7 : Finish

Main Configuration Previous Next

Site Name

Enter the name of your Joomla! site.
Optional: You can also enter Meta Description and Meta keywords for your site.

Basic Settings

Site Name *

Advanced Settings - Optional

Confirm the Admin email and Password.

Enter your email address. This will be the email address of the Web site Super Administrator.
Enter a new password and then confirm it in the appropriate fields. You may change the default username **admin**. These will be the Username and password that you will use to login to the Administrator Control Panel at the end of the installation.
If you are migrating, you can ignore this section. Your current settings will be automatically migrated.

Confirm Admin Password *

Load sample data

Important! It is strongly recommended that new Joomla! users install the default sample data. To do this click on the button *before* moving to the next stage.

1. Sample data: Before leaving the installation, you can populate the site database with data. There are two ways to do this:

1a. Default sample data can be inserted. To do this, make sure the Default English (GB) Sample Data is displayed in the dropdown and click the Install Sample Data button.

1b. Custom sample data can be inserted. To do this, choose an available sample data in the dropdown and click the Install Sample Data button.

2. Clean Installation: If you wish to perform a clean installation, enter the site name, admin email and choose a password. Then

Sample Data set

Default English (GB) Sample Data

Install Sample Data

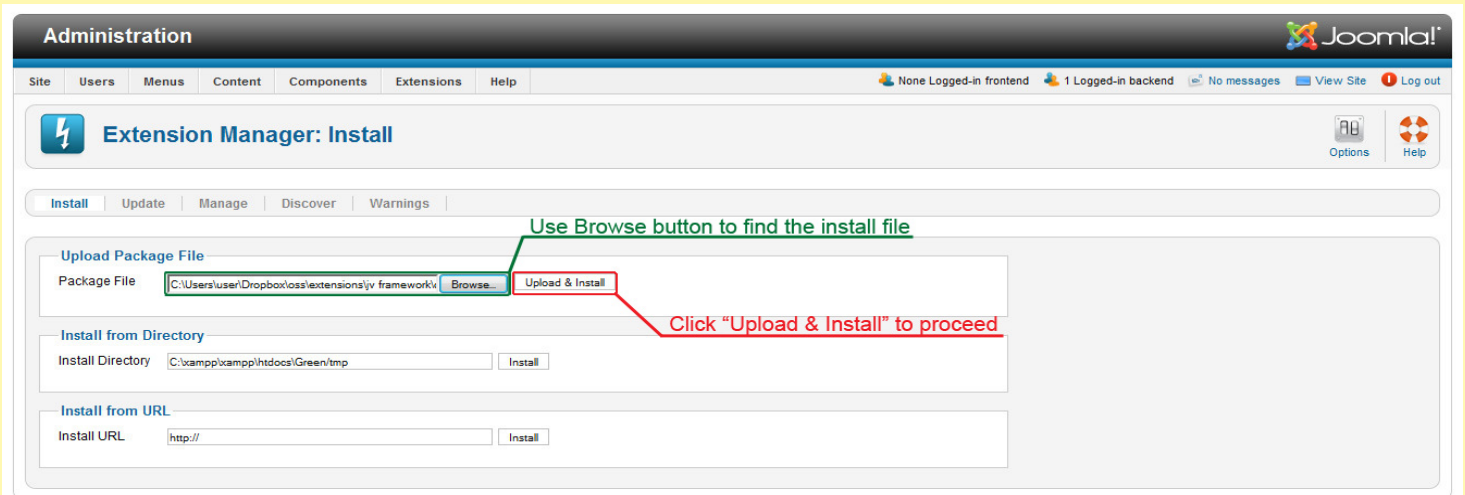

Remember to install Sample Data. It contains the template, extensions and styling.

Installing sample data is strongly recommended for beginners. This will install sample content that is included in the Joomla! installation package.

-You can see our quick-start instruction and Joomla! installation guide for more info.

Installing JV Strategy template with Package version:

- After extracting the 'unzip_first' file, extract the resulting file again to get the installation files of the extensions.
- Log into your Joomla! back end, select extension manager (Joomla! 2.5) or Install/Uninstall (Joomla! 1.5) from extension manager menu.

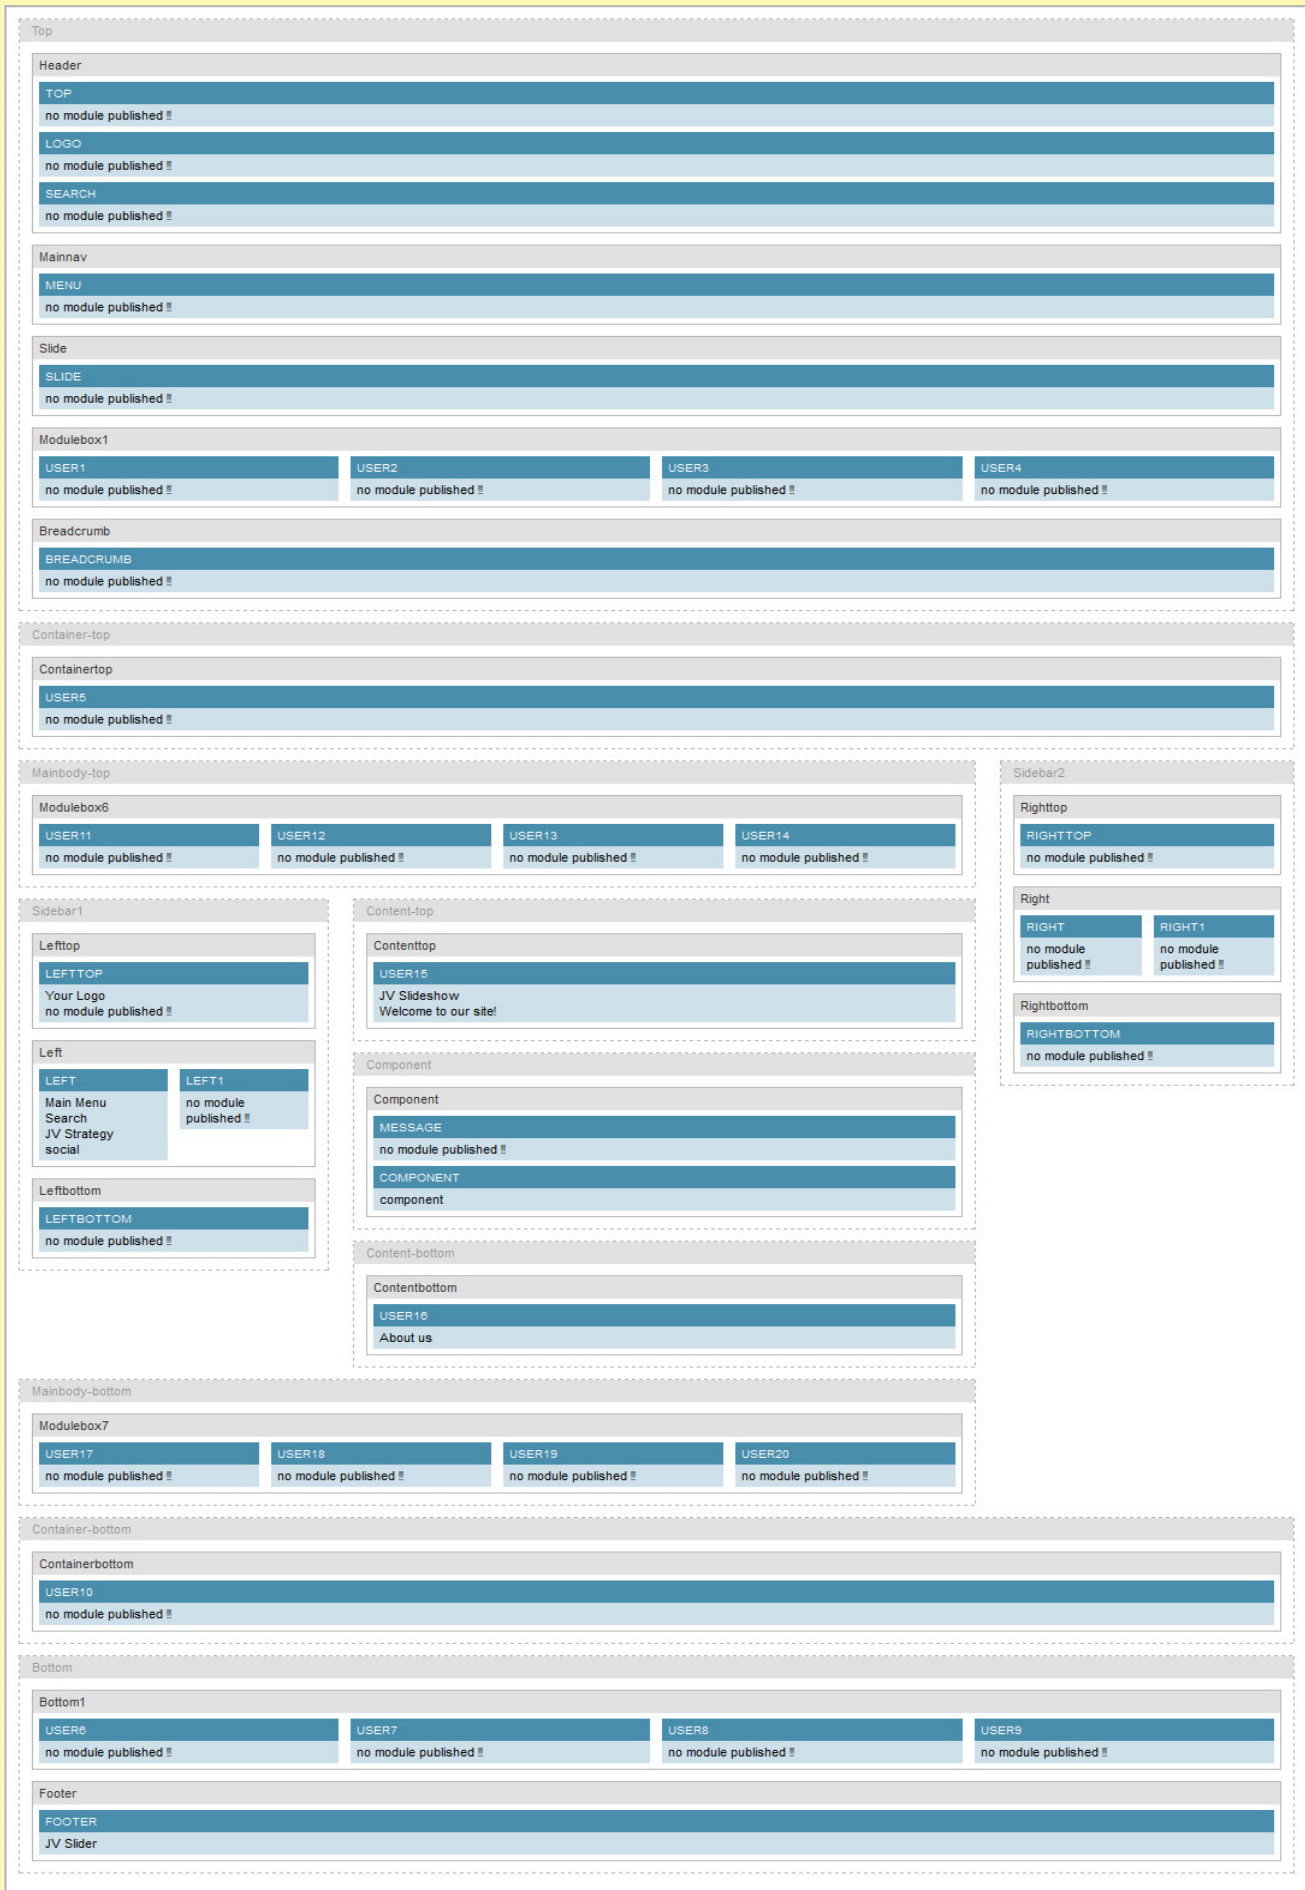

- On install tab, in the 'install from package' section, browse for JV Framework's 'install file' gotten in the first step.
- Click on 'Upload & Install'. Both JV Framework and the theme JV Strategy will be installed to your site.
- Open 'JV Framework' from the component menu, and in "Style" tab, create a style using "JV Strategy" theme.
- Install the rest of the extensions or just the ones you need.

MANAGING JV STRATEGY WITH JV FRAMEWORK – JV STRATEGY LAYOUT

For the basic functions of JV Framework, please refer to JV Framework User guides.

Please note that in this template, JV Frame Work's "Module Style Options" drop down may appear above a Module's default Parameters/Options dropdown(s)

The main difference between themes when using JV Framework is the position layout. The following image will show the default layout of JV Strategy:

NON-STANDARD EXTENSIONS OF JV STRATEGY

The following are extensions that cannot be found or re-created with a default “Joomla!” installation.

If you used the Quick-start version of JV Strategy template, these will be installed along with the theme, including the styling. For an extensions package user, these will be included in the package along with the template:

JV Slideshow

JV Slideshow is an extension developed by JoomlaLavi group that allows users to create image sliders.

*Where to find:

- With styling: JV Strategy’s download page, Extensions package.
- Without styling: <http://www.joomlavi.com/joomla-extensions/jv-slideshow.html>

*Setting up JV Slideshow to make it similar to quick-start/demo:

The screenshot shows the Joomla! Module Parameters configuration page for the JV Slideshow extension. The page is titled "Module Parameters" and has a dropdown menu set to "Custom slide".

Module Parameters:

- Module Class Suffix:
- Images location:
- Source: Folder List Banner

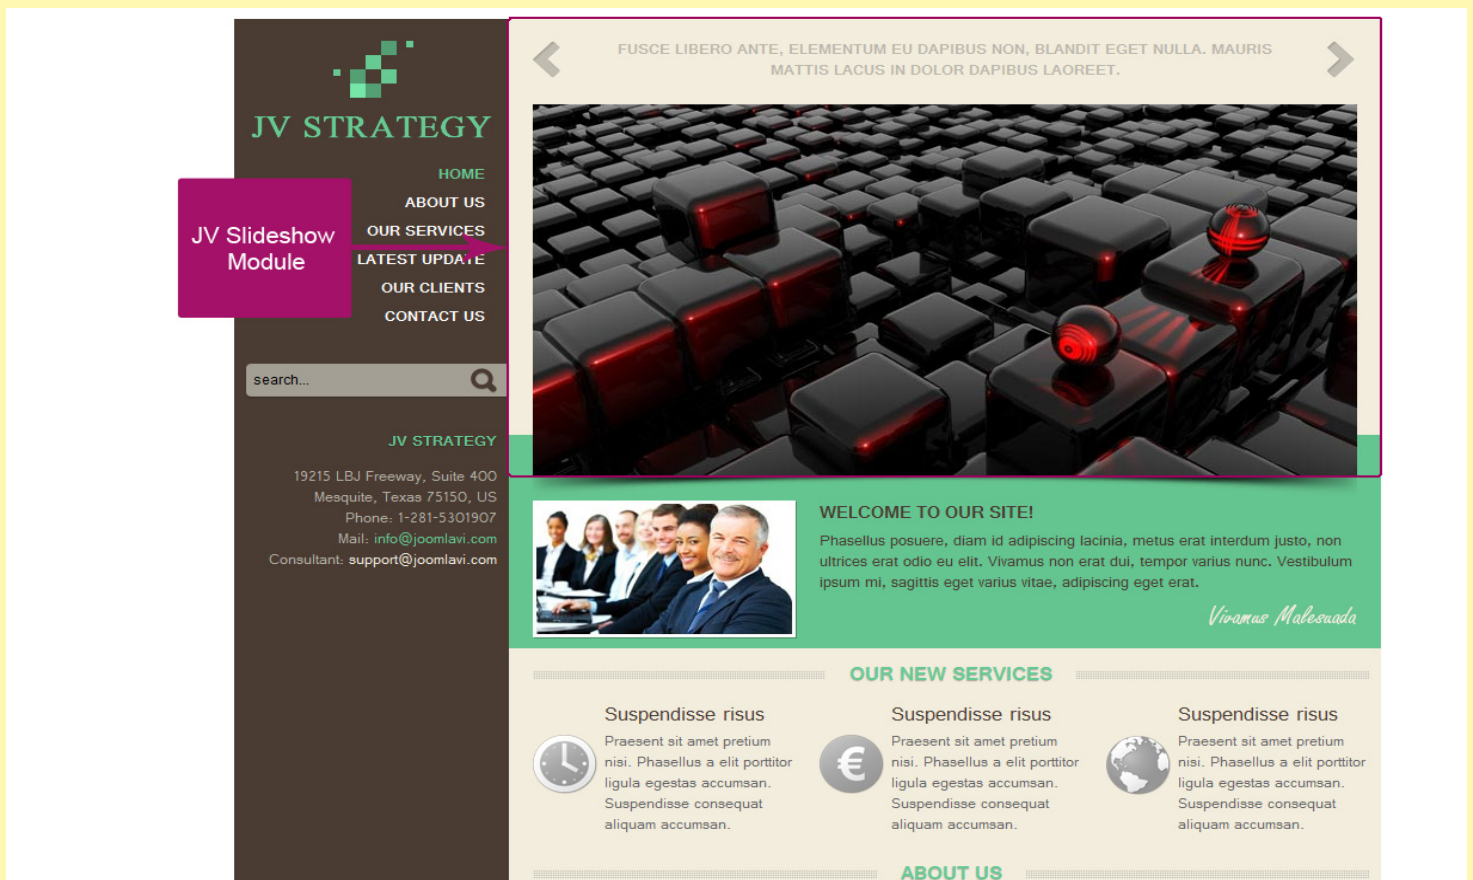

Custom slide configuration:

- Slide 1:** File name: ; Title: ; Redirect: ; Description: (with a scrollable text area)
- Slide 2:** File name: ; Title: ; Redirect: ; Description: (with a scrollable text area)
- Slide 3:** File name: ; Title:

Slider Settings:

- Banner Id:
- Width:
- Height:
- Delay:
- Duration:
- Transition:
- Ease:
- Fx using: Fx swap Fx horizontal slider Fx vertical slider Fx box slider
- Fx swap:
- Fx horizontal slider:
- Fx vertical slider:
- Fx box slider:

- Prepare a folder where you store the images you wanted to use.
- Within your site back end, go to Module Manager and create a JV Slideshow type module. You can also use the default module “JV Slideshow”
- Inside Module mod, set the location to your image folders, set your ‘source’ parameter as ‘List’.
- Click on the button to add slide to your slideshow, enter the names of the image files you want to use and their respective descriptions into the slides.
- Set the module to published/enable, assign it to position ‘user15’ on all pages.
- Save the setting and click on Preview (Joomla! 1.5) or View Site (Joomla! 2.5).

JV Slider

*Where to find:

- With styling: JV Strategy’s download page, Extensions package.
- Without styling: <http://www.joomlavi.com/joomla-extensions/jv-slider.html>

*Setting up JV Slider to make it similar to quick-start/demo:

- Prepare a folder where you store the images you wanted to use.

-Within your site back end, go to Module Manager and create a JV Slider type module. You can also use the default module “JV Slider”

-Inside Module mod, set the location to your image folders, set your ‘source’ parameter as ‘Folder’.

-Set the module to published/enable, assign it to position ‘footer’ on all pages.

-Save the setting and click on Preview (Joomla! 1.5) or View Site (Joomla! 2.5).

The screenshot displays a Joomla! website template. On the left is a dark sidebar with contact information for 'JV STRATEGY'. The main content area features a green header with a 'WELCOME TO OUR SITE!' message and a photo of a business team. Below this is a section titled 'OUR NEW SERVICES' with three columns of placeholder text and icons. The 'ABOUT US' section follows, with three columns of placeholder text and images. The footer contains a 'JV Slider Module' with a navigation arrow and logos for Joomla! and HTML5. A red arrow points from the text 'JV Slider Module' to the slider in the footer.

JV News

JV News is a module developed by Joomlavi group that allow you to display articles in e-newspapers style.

*Where to find:

- With styling: JV Strategy’s download page, Extensions package.

- Without styling: <http://www.joomlavi.com/joomla-extensions/jv-news.html>

*Setting up JV News to make your site similar to the quick-start/demo version:

-Go to your site back-end, create at least one category and the article inside it. In quick-start/demo version, the category involved is “About us”

-Open the module manager and create a module using “JV News” module type, and name it “About us”.

- In the “Categories” parameter of the module, select the article category created in the first step.

-Assign “About us” to the position ‘User16’ on home pages.

The screenshot displays a Joomla! website template. On the left is a dark sidebar with the 'JV STRATEGY' logo and navigation menu (HOME, ABOUT US, OUR SERVICES, LATEST UPDATE, OUR CLIENTS, CONTACT US). Below the menu is a search bar and contact information. The main content area has a header with a quote, a large image of a keyboard, and a 'WELCOME TO OUR SITE!' section with a photo of a group of people. Below this is an 'OUR NEW SERVICES' section with three columns of placeholder text and icons. The 'ABOUT US' section is highlighted with a red border and contains three columns with photos and placeholder text. A red callout box on the right points to this section, labeled 'JV News Module "About us"'. The footer includes social media icons, copyright information, and logos for Joomla! and HTML5.
